

# YOUR SAFETY MATTERS, THAT'S WHY WE EXIST.

We are Levitt-Safety, Canada's national provider of fire, life and environmental solutions.

It's not just about finding you the best products from manufacturers who've been in the business for decades. It's about supporting your team and safeguarding your facility with equipment, services and training.

## What we offer:

This is called 'The Wheel' and it represents our offerings, abilities and knowledge. We can offer everything you see here, separately or bundled – whichever you prefer.

- **Safety Equipment Distribution:** A comprehensive line of personal protective equipment, facilities and fire protection products from over 600 leading manufacturers.
- **Fire and Life Safety Services:** A single point of contact for inspection, calibration, preventative maintenance and repair of safety, fire and instrumentation products.

- **Fire Protection Systems:** Our fire protection services team can provide guidance and servicing solutions on everything from hand-portable extinguishers to complete detection and suppression systems.
- **EHS Training and Consulting Services:** A variety of on-site instructor-led training courses, online training courses and professional consulting services including respirator fit testing, fire training and hazard assessments.
- **Healthcare Solutions:** A comprehensive selection of high quality occupational health and safety products supported by excellent service.
- **Instrument Solutions:** Our dedicated team of instrumentation specialists can provide information on the best products, train your staff and maintain equipment in the areas of gas detection, industrial hygiene, occupational health and environmental monitoring.
- **Rental Services:** We have an inventory of instruments, safety and fire equipment available to rent on a weekly, monthly or project basis.
- **Safety Prescription Eyewear:** A complete safety prescription eyewear program that is easy to administer and cost effective, even in remote locations.

Who we represent:

## Our unique offerings:

We're always looking for innovative products that improve compliance, reduce injuries and make staying safe easier. Below are a few of the unique brands we provide to Canadian businesses.

- **Equiptec:** Multi-use height-adjustable work stairs which come in different models for various heights.
- **AccuTec:** Manufactures the AccuFit 9000 respirator fit testing system which performs all fit tests within 3.5 minutes.
- **WES3:** Wireless evacuation and medical alert system designed for large work environments like construction, mining and manufacturing.
- **NLT:** Designs and manufactures Canadian-made surgical masks, Pleats Plus N95 respirators and world-famous mining cap lamps.
- **Prevor:** Manufactures solutions for chemical accidents and spills in the workplace.
- **Li-ion Tamer:** Mitigates lithium-ion battery fires by giving you advanced warning of a battery failure during early stages.

## What our customers say:

"I have purchased safety equipment from Levitt-Safety for over 30 years in 5 different industry sectors with very few issues. I would definitely recommend them to anyone who is involved in workplace safety." - **Bruce L., OHS Director in the Energy & Utilities Industry**

"I have been in my current role for over 12 years and Levitt-Safety has been with me all along the way. Thanks for all your expertise and guidance over the years, your team is excellent to work with." - **Marina D., OHS Nurse**

"I am very happy with my experience with Levitt-Safety. They provide great quality service and products and we receive outstanding customer service from everyone involved in the process from quotes to payments." - **Sidney U., Buyer in the Mining Industry**
